When you order spare parts, the following must always be specified:

- The product model (for example, power wheelchair C300).
- The description of the part.
- always use the description used in this catalog.
- The entire part number.
- The quantity.

NB! In some cases, parts appear in the spare part catalog without a part number. This means that the part cannot be ordered from Permobil. We have, however, chosen to describe it for your information. Standard components such as screws, nuts, washers and similar parts can be purchased in an ordinary shop using the information in this catalog.

Description of Positioning list

The positioning list consist of:

A = Indicates the sparepart-group covered by the catalog.

B = Indicates part of the sparepart-group.

C = Under C there are five columns:

- 1** = Pos.no: Position number
- 2** = Pcs: Total number of given pos-no.
- 3** = Part no.: Part number
- 4** = Description: Article name
- 5** = Remark: Reserved for additional information such as reservations, restrictions etc.

Part

A part consists of one or more parts. If a part consists of several parts, a bracket in connection with the part's item bubble is used to show the parts included in the part in the exploded views. See example 1.

Quantity

The quantity specified in front of a part is the total quantity for the entire product.

**Example 1:**

The fixed seat tube, pos 2, includes pos 3 to 8, that are indicated in the bracket below (see above).

Example 2:

If a outer tube, pos 2, is ordered, the quantity is 1. In other words, there is just one outer tube on the chassis. However, if you look at the number of parts included, the quantity may vary. For example, in pos 4, the complete outer tube comprises 4 parts.

Vid beställning av reservdelar skall följande alltid anges:

- Produktmodell (ex.vis elrullstol C300).
- Artikelns benämning.
- använd samma benämning som i denna reservdelskatalog vid beställning.
- Hela artikelnumret.
- Antal.

OBS! I reservdelskatalogen förekommer i vissa fall detaljer utan angivet artikelnr. Det innebär att detaljen inte går att beställa från Permobil, men vi har ändå valt att beskriva dem för din information. Standardkomponenter så som skruv, mutter, bricka och liknande detaljer kan införskaffas i den ordinarie detaljhandeln med hjälp av informationen i denna katalog.

Beskrivning av positionslistor

Positionslistan består av:

A = Visar vilken produkt katalogen beskriver.

B = Visar vilken del av produkten som visas på aktuell sida.

C = Under C finns fem kolumner:

- 1 = Pos.no: Positionsnummer
- 2 = Pcs: Antal detaljer som ingår i aktuellt pos.nummer
- 3 = Part no.: Artikelnummer
- 4 = Benämning: Artikelns benämning (svensk och engelsk benämning)
- 5 = Anmärkning: Plats för ev. tilläggsinformation, förbehåll etc.

Artikel

En artikel består av en eller flera detaljer. Om en artikel består av flera detaljer är det markerat i sprängskisserna med ett klamer i anslutning till artikelns posbubbla där det står vilka detaljer som ingår i artikeln. se Ex 1.

Antal

Det angivna antalet framför en artikel är det sammanlagda antalet för hela produkten.

**Ex 1:**

I fast sitsrör Pos. 2, ingår poserna 3 till 8 som står i klamret under. (se ovan)

Ex 2:

Beställs ett Ytterrör, pos. 2, så står det att antalet är 1. Det finns med andra ord bara ett ytterrör på chassit. Men om man tittar på antalet i ingående detaljer, så kan antalet variera, i tex. pos 4 är det 4 st för att ytterröret ska vara komplett.

[illegible]

This image shows a full page of white paper designed for handwriting practice. It features 20 evenly spaced, horizontal dashed lines that run across the entire width of the page. The lines are thin and light gray, providing a guide for letter height and placement without being distracting. There is no text or other markings on the page.
