Part

A part consists of one or more parts. If a part consists of several parts, a bracket in connection with the part's item bubble is used to show the parts included in the part in the exploded views. See example 1.

Quantity

The quantity specified in front of a part is the total quantity for the entire product.

**Example 1:**

The fixed seat tube, pos 2, includes pos 3 to 8, that are indicated in the bracket below (see above).

Example 2:

If a outer tube, pos 2, is ordered, the quantity is 1. In other words, there is just one outer tube on the chassis. However, if you look at the number of parts included, the quantity may vary. For example, in pos 4, the complete outer tube comprises 4 parts.

Vid beställning av reservdelar skall följande alltid anges:

Artikel

En artikel består av en eller flera detaljer. Om en artikel består av flera detaljer är det markerat i sprängskisserna med ett klamer i anslutning till artikelns posbubbla där det står vilka detaljer som ingår i artikeln. se Ex 1.

Antal

Det angivna antalet framför en artikel är det sammanlagda antalet för hela produkten.

**Ex 1:**

I fast sitsrör Pos. 2, ingår poserna 3till 8 som står i klamret under. (se ovan)

Ex 2:

Beställs ett Ytterrör, pos. 2, så står det att antalet är 1. Det finns med andra ord bara ett ytterrör på chassit. Men om man tittar på antalet i ingående detaljer, så kan antalet variera, i tex. pos 4 är det 4 st för att ytterröret ska vara komplett.
